Quality Objectives

Faik aims to provide a professional and ethical service to our clients. In order to demonstrate our intentions, we have identified the following Quality Objectives and we will endeavor to:

- Deliver our Products according to national & international specification and provide a high overall performance.
- Customer satisfaction and loyalty.
- Provide a value for money service and product.
- Provide a high quality of service and product to satisfy our clients' requirements and get things right first time.
- Maintain an effectively trained staff and management.
- Make a profitable return on our activities in order to fund ongoing development and growth.
- Improve efficiency through improvements in productivity. Our Management Team will analyze customer feedback data, internal performance data, financial performance data and business performance data to ensure that our Quality Objectives are being met. We will conduct our business in an ethical and professional manner.
- The Partners have the ultimate responsibility for controlling, directing and coordinating all sales and management activities throughout the organization.
- Each Partner and Associate are responsible for the consolidation of the existing business, the development of new business opportunities and for all technical aspects of providing services. A matrix of specialists provide various aspects of specific technical support (such as computing, contract, estimating etc.) to ensure that customer requirements can be met. However should we make a mistake, we will admit it and rectify the situation as quickly as possible.
